

2022 GA KEY ISSUES REPORTED TO CHIRP

Posted on 23.03.2023 by Steve Forward

Category: [General Aviation](#)

The attached pdf shows graphical and bullet-point representations of the key issues reported to CHIRP by the GA community in 2022. Note that there's a minor difference between the 2 graphs shown due to the fact that some reported issues don't have associated sub-categories because they're self-described in the headline issue and so the headline issues 'Procedures' and 'Handling' are transposed due to this quirk in reporting.
